

Chapman Ventilation Service Leavers Insight Day – 2nd March 2017

As part of our pledged commitment as Armed Forces Covenant signatory Chapman Ventilation are hosting a Service Leavers Insight day, Thursday, 2nd March 2017 from 12pm.

Hosting up to a maximum of 6 delegates we'll be starting the Insight Day at our Head Office and fabrications production facility in Welwyn Garden City (Herts), before heading in to central London to visit a number of restaurant sites in construction and the maintained estate (currently over 1200 restaurants). Over 3 hours we'll meet up with a couple of Project Managers and Industry Representatives including Principle Main Site contractors.

This Insight day would be of interest to Service Leavers looking towards a second career in the Construction or M&E Industry areas, specifically experienced (degree or HND qualified) Mechanical or Civil Engineers.

Market Intelligence reports that the UK restaurant industry is currently worth £50bn per year and is increasing at £1bn per year. As the UK Market leader in restaurant HVAC design and build, this year Chapman Ventilation will complete approximately 200 refurbishments or new build HVAC installation projects turning over approx. £25-30m.

Delegates would need to supply their own Steel Toe Capped Boots, all other PPE required will be supplied.

Get in touch to register your interest with Iain Finch, 01707 372858 or write giving your details to iain.finch@chapmanventilation.co.uk
